

Meeting Minute

Number: 1

In attendance: All team members

Date: 04/10/2024

Time: 18h

Topics:

- 1 - Roles of the team members
- 2 - User Stories definition, prioritization, acceptance criteria and epics
- 3 - Backlog management system setup.
- 4 - Team repository in place.
- 5 - Story points

1 - Roles of the team members

Defined plan:

Name	Role
David Amorim	DevOps Master
Francisca Silva	Team Manager
Maria Linhares	Product owner
Henrique Freitas	Architect

2 - User Stories definition, prioritization, acceptance criteria and epics

Questions:

- Are all the user stories found suitable?

Answer:

- All user stories were relevant and suitable.

3 - Backlog management system setup.

Questions:

- Do we put user stories in the backlog?

Answer:

- Yes.

Fundamentals:

“Product backlog ->This is a list of ‘to do’ items which the Scrum team must tackle. They may be feature definitions for the software, software requirements, user stories or descriptions of supplementary tasks that are needed, such as architecture definition or user documentation.” - Slide 45, IES_03_Agile.pdf, v.04-10-2024

4 - Team repository in place.

Done.

5 - Story points

We gave the stories points according to the effort we thought each user story would have.

Next Steps:

1. Define the architecture
2. Prototype construction
